

How does the Ceiling Vent Air Filter keep indoor air cleaner?

We sincerely introduce the innovative Ceiling Vent Air Filters and Floor Vent Air Filters that are newly available in the market. These Vent Air Filters are designed to help maintain a healthier indoor air environment. Their brand is HEALTHIER & HAPPIER®. The Ceiling Vent Air Filter products can significantly benefit those who use them. Here are some facts demonstrating the effectiveness of filtering out dust and the ease of use of the Ceiling Vent Air Filter Holder and its Air Filter Sheet:

Firstly, it is a simple product. The “Ceiling Vent Air Filter” package includes everything you need for a simple and quick installation process on the A/C vent where the air blows into your room. You can start using it right away without any hassle. You will experience the benefits of filtered cleaner air in the comfort of your home.

The “Ceiling Vent Air Filter” package includes a white plastic Ceiling Vent Air Filter Holder and its Air Filter Sheet 8” x 16” inches, and five pieces of Drywall Screws for easy installation. It is specially designed to cover various ceiling vent and well vent sizes, including 8”x16”, 8”x14”, 8”x12”, 6”x14”, 6”x12”, 6”x10”, 4”x14”, etc.

The “Floor Vent Air Filter” package includes a white plastic Floor Vent Air Filter Holder and its Air Filter Sheet 4” x 12” inches, and four pieces of Drywall Screws for easy installation. It is specially designed to cover multiple floor and wall vents of various sizes, including 4”x12”, 4”x10”, 4”x8”, 2”x10”, etc.

Secondly, it is easy to use. Open the cap on the holder and replace the Air Filter Sheet every six months.

How to use it?

Ceiling Vent Air Filter Holder

Open the cap
add Eco Air Filter Sheet, Merv 8

Open the cap
add Air Filter Sheet, Merv 5

Thirdly, it efficiently filters out dust. Look at the air filter sheets after six months of use, and you will see how much dust they collected. You may be breathing in some dust without the Ceiling Vent Air Filter.
